# JEAN-LUC MOUREY

**Web, mobile & software developer**

Developer with a BSc in Computer Science with honours from the University of Southampton and over five years of professional experience building custom web, mobile and Windows applications, from the database to the user interface. Bilingual English / French, and used to working closely with clients at every stage of a project.

## EXPERIENCE

**Independent developer** · 2026 – present
*Freelance*

- Manufix: a Windows tool (C# / .NET) that audits and repairs Manuquip's Excel product catalogue, backing up every file before it is touched
- Rebuild of manuquip.com (in progress)
- Personal projects, shown in this portfolio

**Developer** · Jun 2022 – Dec 2025
*Manuquip, Six-Fours-les-Plages — remote*

- Built the company website, manuquip.com

**WinDev developer** · Jul 2019 – Sep 2020 & Jun – Jul 2021
*CMD Informatique*

- Developed custom web and mobile applications in the WinDev environment
- Built databases, web services and user interfaces
- Created and ran a training course on the development environment
- Worked with clients at every stage of development to meet their needs

**Software developer** · Dec 2020 – May 2021
*CDS Soft (Studiel group)*

- Developed custom Windows, web and mobile applications in WinDev
- Built databases and user interfaces
- Created HTML + CSS pages in the Blazor framework
- Optimised and updated modules of existing WinDev applications

**Database developer** · 2014 – 2015
*Client: Ludically, board game publisher*

- Created a database system to manage the company's logistics, in MS Access and Visual Basic
- Designed and implemented an intuitive GUI
- Worked with the client to understand and address their needs
- Wrote a detailed guide for installation and daily use

## INTERESTS

- Keeping up with new technology, especially emerging tech
- Reverse-engineering and analysing video game mechanics
- Kinetic typography & video editing
